● The "monthly exclusion amount" or "monthly exclusion" is the part of your benefit on which you have already paid taxes. If you made any after-tax contributions to your ERSRI account — for example, regular contributions you made before 1986 or through a buyback of service time — then you do not have to pay taxes on that part of your benefit. The non-taxable portion of your benefit listed in **Box 5** is calculated using the Simplified Method in IRS Publication 575—Pension and Annuity Income.

- ▲ The codes below are found in **Box 7** and indicate the type of benefit being reported to IRS:
- 1 – Partial service retirement distribution being paid to a member who is under age 59 1/2 on December 31st of the tax year being reported.
 - 2 – Service retirement distribution being paid to a member who is younger than 59 1/2 or a refund of retirement contributions when the individual is between ages 55 and 59 1/2 years of age on December 31st of the tax year being reported.
 - 3 – Disability retirement distribution.
 - 4 – Indicates the amount reported is a death benefit lump sum distribution or retirement distribution made to a member's beneficiary or survivor, including their trust or estate.
 - 4G – Indicates the amount reported is a death benefit distribution which was a direct rollover distribution to a tax-sheltered annuity or a traditional IRA.
 - 7 – Normal distribution
 - 7A – For participants born before January 2, 1936, or their beneficiaries, to indicate the distribution may be eligible for the 10-year tax option method of computing the tax on lump-sum distributions (on Form 4972, Tax on Lump-Sum Distributions)
 - G – Distribution Code G represents amounts that you elected to roll over to another qualified retirement account, such as an Individual Retirement Account (IRA). ERSRI transferred these funds directly to the financial institution as directed by you.
