
Ron Nemeth

B.Arch, AAA, OAA | Architect, Principal

Education

Bachelor of Architecture, Université de Montréal (1986)
Management of Health & Social Services Certificate (part-time), McGill University (1998)

Affiliations

Alberta Association of Architects (AAA), Ontario Association of Architects (OAA),
Director - Consulting Architects of Alberta

ROLE IN PROJECT

Ron will be the contact point for ACI and coordinator of the Edmonton-based team.

BIO

With 26 years in the industry, Ron has the benefit of both professional design training and a senior staff position in public administration. He has helped dozens of user groups work through their functional planning to achieve authority approvals and ultimately occupy completed facilities.

His clear, informal communication style and gregarious nature help to make the process more enjoyable for all. Ron recognizes the skills each party brings yet challenges as required to explore an option that may be more efficient or represent better long-term value. He is responsive to calls and e-mails within very short turnaround times. Numerous repeat clients benefit from his excellent planning, design and presentation skills. Ron has lectured on healthcare design with presentations in Canada and U.S. Ron is fluent in both French and English.

Research Centre
Montreal, QC

"Is there another profession referenced as repeatedly as Architecture in the cliché "I always wanted to be ..."? Buried in a musty box in a Montreal basement are decades-old house plans drawn in HB pencil when I was still a teenager. Thirty years later I've long understood that the thrill of imagining such spaces is only the beginning: 'selling' them with passion and patience, refining them to meet budgets and needs, and finally observing their impact and relevance in built form bring full circle those early strokes of a pencil." -Ron
