Mobile Audiometric Technicians

Do you want to be part of a dynamic, growing, and fun team? Are you ready to start your career with an organization that recognizes the value of its people?

Synopsis

This career offers a truly unique opportunity. As a Mobile Audiometric Technician, you will travel around Western Canada visiting a variety of worksites. If navigating challenging roads and working independently sounds exciting, then this is the job for you.

Role Details

As a Certified Audiometric Technician, you will be required to drive a one ton truck and pull an Audio trailer while navigating many forestry roads across Western Canada. You will visit various oil rigs and other work sites in order to conduct testing. Travel is required. Technicians may be away for up to 5 days at a time. A comprehensive in-house training program is provided for this role.

Responsibilities

- Coordinating and conducting audiometric testing services for workers
- Accurately interpreting and entering results in our proprietary software
- Recording results on Audio Cards
  - Assisting workers in interpreting and understanding Audio Cards
- Equipment maintenance
  - Ensuring audiometers are cleaned and accounted for on a weekly basis
  - Conducting equipment calibrations on a standardized basis
  - Maintaining safety equipment, hitches, and tools in vehicles
  - Responsible for all truck and trailer safety processes and protocols
- Coordinating with SureHire Audio Coordinator regarding
  - Booking appointments
  - Weekly, monthly, and yearly statistics
  - Training new employees
  - Rig Testing
  - Inventory and supply needs
Qualifications

- Ability to work independently and with little supervision
- Strong attention to detail
- Exceptional interpersonal and communication skills
- Ability to multi-task and organize
- Valid Class 5 AB Drivers License with clean abstract
- Ability to navigate one ton truck and trailer through various challenging conditions and roads

The successful candidate must be comfortable with travel for extended periods at a time (up to 5 days). This position requires someone who is able to adapt to various working environments, including outdoors in inclement weather. This individual must be able to learn and understand SureHire’s proprietary software, Portaccount, and equipment.

Education

- Accredited Audiometric Certification
- Mask Fit Certification
- Spirometry Technician Certification
- H2S Alive Certificate
- First Aid Certified
- WHIMS
- TDG Certified – Transportation of Dangerous Good

The above certification is considered a strong asset, but not mandatory. SureHire may provide training and entry to these courses for the right candidate.

Experience

- 3 - 5 years in a customer or client service role is essential
- Previous experience in trucking, transportation, oil & gas or construction industry considered an asset
