NETWORKING QUESTIONS

- Why do you feel that networking is important for career development?
- What networking opportunities have you engaged in to further your career?
- Did you create a career network action plan? Did network opportunities come haphazardly or did you plan for them?
- How many people do you need in your network for it to be effective for you?
- Having advocates are a big component of an effective career network. How do you find advocates?
- A career network should be a two-way street so how do assist in building the professional networks of others?
