

Seniors Care

Independence and Peace of Mind

Make sure your loved one's needs are being met and help avoid potential emergencies before they happen.

The non-intrusive Seniors Care system from Liberty monitors daily activity with small sensors in the home that communicate with your home system. Receive real-time notifications of what is happening in the home as well as status updates via your mobile device using the Liberty Live app.

Real-time notifications of what is happening in the home

Bed sensors make it easy to see if your mom got out of bed this morning

Alert buttons can be placed in high-traffic areas of the home

With Seniors Care from Liberty, discover the peace of mind that comes with having complete insight into the daily routines and happenings inside the home of your aging family members.

One of the key benefits of using Seniors Care services from Liberty is the integration with your security system and sensor data.

- ✓ Know if your mom got out of bed this morning
- ✓ See if your dad left the house to take his morning walk
- ✓ Make sure your grandmother is moving around the house

Get real-time notifications when your elderly family member is:

- ✓ Up and About
- ✓ Away from Bed
- ✓ Safe Inside
- ✓ Having a Personal Emergency

Since Liberty sensors are constantly monitoring activity, the need for emergency pendants is reduced. But in case of emergency, our Seniors Care service offering comes complete with a Personal Emergency Response button and optional big red alert button which can be placed in a high-traffic area of the home. Multiple buttons are available if needed.
